

Heavy Hydraulic Breaker

Model V65MS

For carriers from 100,000 to 198,000 lbs.

Size and Power ! Montabert's biggest breaker ever...The V65MS

- **V-Technology**

- unique patented design enables V-Series breakers to sense changes in hardness as material is processed
- breaker adjusts automatically to optimum combination of impact power and striking rate for greatest productivity

- **TPS Tool Protection System**

- patented front guide design, bushings, tool and retainer pins let the strongest points take the stress
- oversize bushings made of specially formulated hard bronze with a low coefficient of friction with steel - reduce friction and wear

- **Fully hydraulic operating principle**

- piston is both raised and driven hydraulically - no gas activation or assistance as in other hammers
- excellent reliability, less maintenance, and extended working life

- **Progressive start**

- start-up in low impact mode allows the operator to dig a small cavity to hold the tool in place as full impact power is applied

- **Automatic lubrication**

- **Metro-silenced**

- extra heavy duty cradle reduces environmental noise
- replaceable wear plates on front, rear, and sides make unit fully serviceable from all directions

Heavy Range Hydraulic Breaker - Model V65MS

For dimensions and specifications, see the back of this page.

Hydraulic Breaker - Model V65MS

Specifications and Dimensions

Impact Class	<i>ft lbs</i>	15,000
Recommended Carrier Weight	<i>US tons</i>	50 - 99
Working Weight	<i>lbs kg</i>	12,790 5,800
Flow Range	<i>gpm lpm</i>	100 - 111 380 - 420
Striking Rate	<i>bpm</i>	380 - 950
Adjusted Breaker Pressure	<i>psi bar</i>	2400 165
Tool Diameter	<i>in mm</i>	7.95 202
Overall Height w/Tool & Bracket	<i>in mm</i>	138 3,506
Width	<i>in mm</i>	34 870

Quality and dependability: two features you can count on with every Montabert product.

All Montabert products are engineered for superior performance, manufactured to the most exacting specifications, and—within the guidelines of the industry's most rigid quality control program—thoroughly inspected at every stage of production. All working parts are precision-machined to the closest tolerances, and all materials meet or exceed the highest industry standards. These are but a few of the many vital reasons major contractors worldwide choose our products.

They know that with Montabert, reliability is crucial; a basic component conscientiously built into every unit that bears our name.
