

***SUPER COSMO
PULVERIZER
WITH MAGNET***

STRONG MAGNET !
POWERFUL CRUSHER !
PROFITABLE JOB !!!

Safety

Complete mechanization of collecting rebars

Speed

High capacity speed valve is installed

Recycle

100 % collection of rebars ; High quality aggregates

Vibration isolation structure

Equipped with top guard to protect generator from any falling down objects.

Magnet on-off switch

Simultaneous operation of pulverizing and magnet is possible.

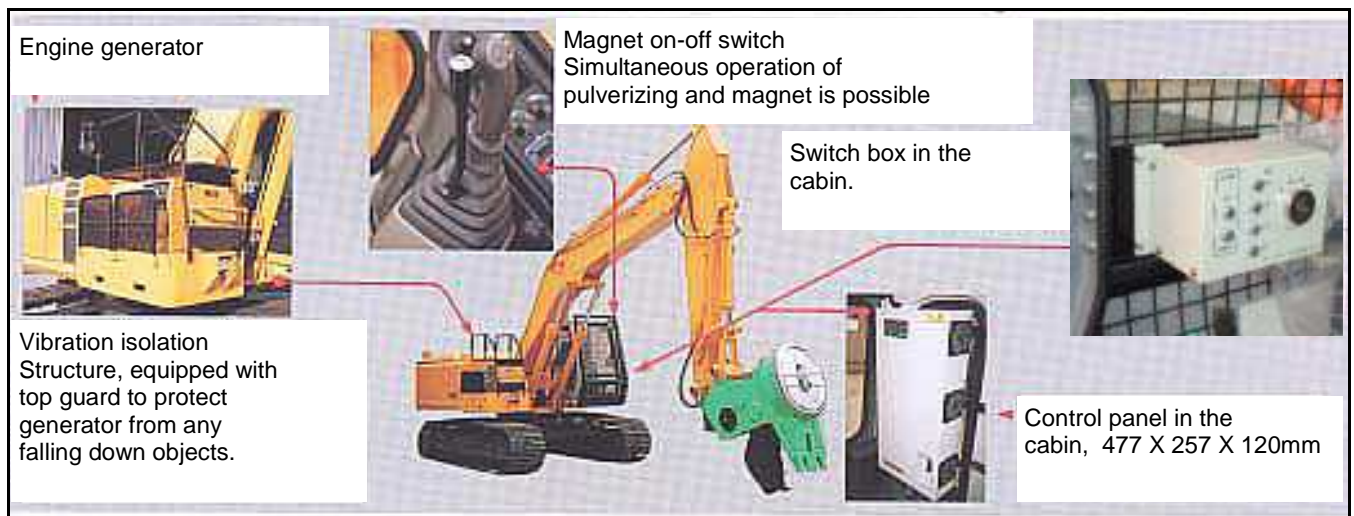

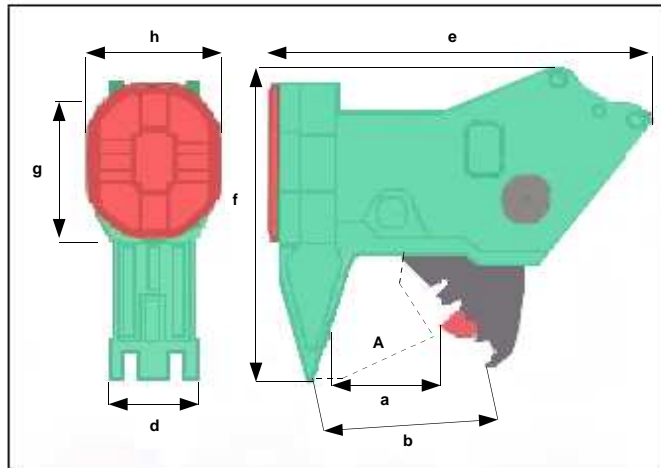

Strong magnet !

Powerful crushing

Generator starter in the cabin

Control box in the cabin, 544 x 253 x 110 mm

Super Cosmo Model			1300	2000	2400	3500	4000
Size of excavator	Ton		10-17	17-25	20-27	32-35	33-45

	bars		280	320			
Machine weight	kg		1300	2000	2400	3500	4000
Specification of magnet							
Type	Electro magnet						
g x h	mm		620	850 x 700			
Lift up Capacity	Slab	kg	4500	10,000			
	Rebar	kg	150	250			
Generator	Diesel engine drive, 6.0 KVA						

TRAMAC reserves the right to change or discontinue models and/or specifications without prior notice.

Quality and dependability: two features you can count on with every TRAMAC product.

All TRAMAC products are engineered for superior performance, manufactured to the most exacting specifications, and—within the guidelines of the industry's most rigid quality control program—thoroughly inspected at every stage of production. All working parts are precision-machined to the closest tolerances, and all materials meet or exceed the highest industry standards. These are but a few of the many vital reasons major contractors worldwide choose our products.

They know that with TRAMAC, reliability is crucial; a basic component conscientiously built into every unit that bears our name.
